The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 3-4, 12, 14, 16, 20 and 22-26 are rejected under 35 U.S.C. 102(e) as being anticipated by Puri (U.S. Patent No. 6,064,982).

Referring to claim 3. Puri discloses a commodity retrieval method in a commodity sale transaction via a network (Puri: FIG. 1, “12”), the method comprising:

- Displaying objects of use of commodities on a user’s terminal (Puri: FIG. 4, “50”);

- Acquiring a specification corresponding to at least one object of use selected by a user via the terminal from the table, the user selecting the at least one object of use from the displayed objects of use of the commodities (Puri: FIG. 7, “81”);
- Retrieving the commodities based on the acquired specification as a retrieval condition (Puri: FIG. 9); and
- Displaying, on the terminal, information on a commodity having specifications corresponding to the selected object of use without requiring the user’s

knowledge of specifications corresponding to the at least one object of use selected by the user (Puri: FIG. 9).

Referring to claim 4. Puri further discloses a method wherein the network is Internet (Puri: column 2, line 61 through column 3, line 9).

Referring to claim 12. Claim 12 is rejected under the same rationale as set forth above in claims 3-4.

Referring to claim 14. Claim 14 is rejected under the same rationale as set forth above in claims 3-4.

Referring to claim 16. Claim 16 is rejected under the same rationale as set forth above in claims 3.

Referring to claim 20. Claim 20 is rejected under the same rationale as set forth above in claims 3.

Referring to claim 22. Claim 22 is rejected under the same rationale as set forth above in claims 3.

Referring to claim 23. Claim 23 is rejected under the same rationale as set forth above in claims 3.

Referring to claim 24. Claim 24 is rejected under the same rationale as set forth above in claims 3.

Referring to claim 25. Claim 25 is rejected under the same rationale as set forth above in claims 3.

Referring to claim 26. Puri discloses a commodity retrieval method for a commodity sales transaction, comprising:

Art Unit: 3625

- Storing attribute information of commodities available for sale and displaying an object of use for each of the commodities for sale based on the stored attribute information (Puri: FIG. 4); and
- Enabling a user to make a selection from the displayed object of use (Puri: FIG. 4) and providing information of a corresponding commodity to the user based on the selection of the object of use (Puri: FIG. 5).
